

EXTRAORDINARY GENERAL MEETING

At an appropriate point with the AGM, an EGM will be held to consider proposed changes to the Association's rules. The proposals will be published on the ESTA website [ESTA | Earth Science Teachers' Association](#) and circulated by email prior to the EGM to enable members to examine them before the meeting.

In essence, the proposals aim to move ESTA to an elected membership, as appropriate to an organisation which has been awarded the ac.uk suffix, and to separate the rules which need the approval of the Charity Commission from the regulations which do not need such approval, to enhance the efficient running of the Association.
